Text

Short text	Water-repellent HV jacket (adaptable with TUBE)
Marketing Summary	This jacket, compliant with EN343:2019 standards, provides effective protection in light rain thanks to its water-repellent fabric. Certified to EN 20471, its retroreflective strips enhance your visibility in low light conditions.
Web Technical Details	Composition: 300D Oxford fabric, waterproof 2000 mm, 100% polyester with polyurethane coating – 190 g/m ² . Water repellency: Certified EN343:2019, its water-repellent treatment and taped seams protect you from light rain. Its retractable and drawstring-adjustable hood completes this protection. The hook-and-loop closure placket offers additional weather protection and protects sensitive surfaces. Enhanced visibility and safety: Certified EN ISO 20471, Class 2, your safety is enhanced in hazardous environments. Its fluorescent color/Its retroreflective strips increase your visibility in low-light conditions. Adaptable: Its interior snap-fastening tabs allow you to easily combine it with the jacket (2298 TUBE) to transform it into a parka (5002 PREVENTION). Clever multi-pockets: Designed for ultimate practicality, its numerous pockets facilitate your daily organization: 1 interior chest pocket with a hook-and-loop closure and 2 lower pockets with flap and hook-and-loop closures. Adjustable and comfortable: The adjustable cuffs with tabs and hook-and-loop closures allow for a customized fit to minimize soiling. The elasticated waist adds further comfort. Ventilation eyelets are located under the armholes to wick away perspiration. Smart detail: Its high collar protects you from wind and cold. A zipper at the bottom of the back facilitates branding.
