Text

Short text	Durable trousers with floating pockets and knee pad pockets
Marketing Summary	These practical trousers are designed to keep your tools always within easy reach thanks to their retractable floating pockets. Their reinforced knee pad pockets, compliant with EN 14404+A1 standards, protect your knees when working on the ground.

Web Technical Details

Composition:

Canvas 65% polyester 35% cotton – 260 g/m² Reinforcements: Waterproof 600D Oxford 100% polyester - 300 g/m² Durability and resistance: Its various reinforcements (crotch, knees, lower legs, triple stitching) extend its lifespan.

Protection and durability:

Its reinforced, double-position knee pad pockets made of waterproof 600D Oxford, compliant with EN 14404+A1 standards, protect your knees during prolonged work on the ground, in conjunction with the INOX 028300 knee pad.

Functionality:

Its two retractable, multi-compartment floating pockets keep your tools within easy reach. The left pocket offers a practical space for nails and screws, while the right pocket includes an additional pocket and a tool holder system. When not in use, they simply fold into the hand pockets. Its numerous pockets make daily organization easy: 2 western-style hand pockets, 1 zipped left thigh pocket with 2 additional pockets secured by flaps and Velcro, 1 reinforced ruler pocket on the right, 1 hammer loop, 1 patch pocket on the left back with a flap and Velcro closure, and 1 reinforced gusset pocket on the right back with a zip and flap closure.

Support and stability:

The elasticated waistband at the sides and raised at the back ensures a comfortable fit. Eight belt loops, including one extra-wide loop and one with a plastic D-ring, stabilize the waistband when you change positions.

A clever detail:

The magic hem can lengthen the leg by 2 inches, adapting to your height.
