Text

Short text	Water-repellent and warm parka
Marketing Summary	Designed for winter, this parka protects you from cold and moisture thanks to its water-repellent fabric and padding. Certified EN ISO 14058, it withstands temperatures down to -5°C and combines practicality and resistance with targeted pockets and reinforcements.
Summary Marketing Shorts (240c)	Designed for winter, this parka protects against cold and damp thanks to its water-repellent fabric and quilted lining. Compliant with EN ISO 14058 standards, it is resistant down to -5°C and combines

practicality and durability with strategically placed pockets and reinforcements.

Web Technical Details

Waterproof:

Its fabric, reinforcements and waterproof seams prevent moisture absorption and protect you from bad weather. The double flap with hidden snap buttons provides additional protection against the elements and preserves sensitive surfaces.

Thermal protection:

Its inner padding effectively insulates you from the cold and retains body heat for longer. Certified EN ISO 14058, it allows you to withstand temperatures down to -5°C.

Smart multi-pockets:

Designed to be ultra-practical, its numerous pockets make daily organization easier: 2 fleece-lined handwarmer pockets with snap fastening, 2 large lower pockets with flap and snap button, 1 chest pocket with zip under flap, and 1 hidden zip pocket under front flap, accessible without opening the jacket.

Reinforced protection:

Its waterproof 500D Oxford reinforcements (shoulders, elbows, lower back, pocket flaps, front flap) provide increased resistance to wear on high-stress areas. These strategic reinforcements extend its durability.

Adjustable and comfortable:

The adjustable cuffs with hook-and-loop fastening, windproof inner cuffs and thumb loops provide a tailored fit to help reduce dirt exposure. The elasticated waistband adds extra comfort.

The two-way zipper also allows the parka to be opened from the bottom, offering more ease when sitting.

Smart Details:

Its high collar, raised at the back and lined with fleece, protects you from wind and cold.

An inner zip at the lower back makes branding easier.
