

FRICTION

Code : 22594

Type : produit

Attribute set : BLOUSON / VESTE / PONCHOS / ENSEMBLE

Article > Product

Description

Name	FRICTION
Reference	2343
Article designation	WLD-C2 -FRICTION veste protection soudage

Classification

Typology	MULTI-RISK CLOTHING
Range	BASIC RANGE
Main profession	INDUSTRY
Season	All Seasons
Brand	LMA WORKWEAR
Gender	MAN
Release status	New Permanents followed
Model	JACKET / JACKET / PONCHOS

Article > Product sheet

Style

Basic cut	SOUDURE 2342
Tint	solid
Colour	Black
Open Size	S-XXXXL

Features

Matter	Majority Cotton
Main composition	99% cotton 1% antistatik
Main fabric weave	satin
Fabric specificities	flame retardant fabric treated against liquid chemicals antistatic component

Finishes

Topstitching	double tone on tone
Stopping points	contrasting red
Piping	red on the front paw
Product specifications	2 detector door flanges large chest marking area ATEX zone zero metal Interior brand sticker
Branding	ATEX zone embroidery on left sleeve pocket

Pockets

Number of pockets	5
Right chest pocket	plated closed with flap and hidden plastic snap button
Inside right chest pocket	plated
Low pocket	plated closed with flap and hidden plastic snap button
Left sleeve pocket	bellows closed by a flap with hidden plastic snap

Attributs

Collar	Rising
Main Zip	plastic injected zip under tab with hidden plastic pressure
Sleeve cuffs	semi elasticated
Lower body	elastic on the sides

Text

Short text	Welder jacket - zero exposed metal
Marketing Summary	Designed for the most exposed welding workstations, this jacket provides reliable protection during industrial welding work generating more projections. Certified EN ISO 11611:2015 and EN ISO 11612:2015, it effectively protects you against molten metal splashes, heat and flames. Its fabric, certified EN 1149-5:2018, with antistatic properties dissipates electrostatic charges, completing this protection.
Web Technical Details	Multi-risk protection: Specially designed for MMA or MIG welding work, this jacket provides simultaneous protection against three major hazards: it protects you against heat, flames and molten iron splashes (EN ISO 11612:2015, A1, A2, B1, C1, E3, F1), projections during welding and related techniques (EN ISO 11611:2015, class 2) and allows effective dissipation of electrostatic charges (EN 1149-5:2018). Adjustable and comfortable: The semi-elasticated cuffs provide a tailored fit to help reduce dirt exposure. The elasticated waistband adds extra comfort. Functional: Multiple pockets for easy daily organization: 1 chest pocket with flap, hook-and-loop fastening and concealed button, 1 inner right chest pocket and 2 lower pockets with flap and concealed button. In addition, it features a specific pocket on the sleeve designed to hold your fall detector. Zero exposed metal: Designed without any exposed metal, this jacket offers increased safety in situations exposed to electrical hazards. Smart Details: Its high collar provides complete protection against the many risks of your daily work. Its 2 loops allow you to attach your detector. Its zip fastening is covered by a hook-and-loop flap, preserving sensitive surfaces. A hanger loop and a name tag inside the collar make identification easier.
