Text

Short text	Welder trousers with kneepad pockets - zero exposed metal
Marketing Summary	For welding work generating more projections, these trousers protect you against molten metal splashes, heat and flames, in accordance with EN ISO 11611:2015 and EN ISO 11612:2015. Certified EN 1149-5:2018, the antistatic properties of their fabric allow electrostatic charges to dissipate. Equipped with EN 14404-4 certified kneepad pockets, they protect your knees during ground work.
Web Technical Details	Multi-risk protection: Specially designed for MMA or MIG welding work, these trousers provide simultaneous protection against three major hazards: they protect you against heat, flames and molten iron splashes (EN ISO 11612:2015, A1, A2, B1, C1, E3, F1), projections during welding and related techniques (EN ISO 11611:2015, class 2) and allow effective dissipation of electrostatic charges (EN 1149-5:2018). Protection and durability: Its inner single-position kneepad pockets, certified EN 14404-4, protect your knees during prolonged ground work. Their top-loading design allows quick and easy insertion of the 99159 SHIELD knee pad. Functional: Multiple pockets for easy daily organization: 2 Italian hand pockets, 1 left thigh pocket with flap and concealed press-stud fastening and 1 right back pocket with flap and concealed press-stud fastening. Support and Stability: Its elasticated waistband on the sides, adjustable with an elastic and inner button, ensures an optimal fit to your body shape, whether you are a man or a woman. Its 5 belt loops keep the belt stable during position changes. Zero
