Text

Short text	Lightweight ESD jacket
Marketing Summary	Lightweight and designed to limit electrostatic discharges, this EN 1149-5 certified ESD jacket protects sensitive materials thanks to its integrated carbon fibres. Designed for cleanrooms and laboratories, it is suitable for sensitive environments.
Web Technical Details	Electrostatic protection, EN 1149-5 certified: Its fabric contains carbon fibres, ensuring efficient dissipation of electrostatic charges and protecting your equipment or components. Lightweight and comfortable: Ultra-light, it is easy to wear in warm environments. Protective barrier: Its long sleeves, adjustable with tab and hook-and-loop fastener, adapt to your body shape and protect you from dirt and potential discharges. Functional: Its three spacious and sturdy pockets, including a chest pocket with pen slot, help you stay organized throughout the day. Smart detail: Its name tag inside the collar makes identification easier.
