Text

Short text	Reversible quilted water-repellent HV bodywarmer
Marketing Summary	This reversible bodywarmer adapts intelligently to your workday. On the high-visibility side, certified EN 20471, its fluorescent color and retroreflective strips ensure your safety and optimal visibility during fieldwork. Flip it over to the more discreet blue side as soon as high visibility is no longer needed. A real asset for professionals who move between different contexts and environments. Its water-repellent treatment protects you from light rain while providing the extra warmth you need on cooler days.
Web Technical Details	Composition: Waterproof 300D Oxford fabric, 100% polyester – 190 g/m² Padding: 100% polyester microfiber Water repellency: Its water-repellent treatment protects you from light rain. Protection and durability: Its Oxford fabric, known for its strength, reduces the risk of tearing. Enhanced visibility and safety: Certified to EN ISO 20471+A1, Class 2, your safety is enhanced in hazardous environments.Its fluorescent color and itsReflective strips increase your visibility in low-light conditions. The cross pattern on the back signals to other road users that you are not in their line of sight, increasing their awareness and enhancing your safety. Reversible: Versatile, this bodywarmer features a high-visibility side for safety and a neutral side, ideal for everyday wear. Functional: Its numerous pockets make daily organization easy: 1 zippered inner chest pocket on the high-visibility side and 2 lower pockets on each side. Clever details: Its high collar effectively protects you from wind and cold. Furthermore, its two-way zipper allows you to easily transition to a seated position by opening the bodywarmer from the bottom.
