Ideal for professionals, it offers comfort and ease of use every day.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Web Technical Details              | Composition: 3-layer softshell, 100% polyester - 280 g/m <sup>2</sup> . Waterproof/breathable membrane: 2000 g/m <sup>2</sup> /24h breathability, 8000 mm waterproof rating, water-repellent treatment. Reinforcements: 100% polyester 300D waterproof Oxford fabric, 175 g/m <sup>2</sup> . Breathable: Its waterproof/breathable membrane allows for efficient moisture wicking, ensuring continuous comfort during strenuous activity. Comfortable: Its mechanical stretch fabric allows for easy movement. Functional: Its numerous pockets facilitate daily organization: 1 reinforced inner chest pocket, 1 zippered chest pocket, 2 lower inner pockets, 2 reinforced lower pockets. Enhanced protection: Its 300D Oxford reinforcements on the shoulders limit wear and tear from carrying loads. This strategic protection extends its lifespan. Zero exposed metal: Designed without metal, this softshell jacket ensures greater safety in situations where there is a risk of electrical damage. A clever detail: Its high collar protects you from wind and cold. |
